

CUT WITH CONFIDENCE SUCCESS STORY

How Superior Masonry Builders saved on their Soff-Cut Project

**Completed 50,000* lineal ft
early entry flatwork sawing,
using only 9 blades!**

**Watch
Customer Testimonial
for further details!**

How Esch's products & services helped:

- Better quality of cut - saved overtime downtime (CUT LABOR)
- Cut number of blades used (CUT COSTS & TIME)
- Esch maintained our equipment for high performance (CUT DOWNTIME)

Available in sizes: 6", 6.5", 10", 12" and 13.5"

Why Esch ProCut Purple?

- For early entry cutting in the green zone
- Clean joints and easy cutting extending the green zone time frame for same day cutting
- High diamond concentration, limiting glazing over

*As reported by Superior Masonry Builders. Results may vary based on jobsite conditions, operator experience, blade size, equipment model, etc.
